

# TeeRead assesses fluency and comprehension for you!

Take your students' reading to the next level!

## Determines students' reading level

TeeRead's report includes all major fluency KPIs, including:

- Reading grade level
- Words per minute
- Accuracy rate
- Words correct per minute
- Reading comprehension questions
- Passage's Lexile level

## Identifies and categorizes miscues

TeeRead analyzes students' miscues, categorizing them as:

- Visual errors
- Meaning errors
- Function words
- Omitted words
- Inserted words
- Self-correction

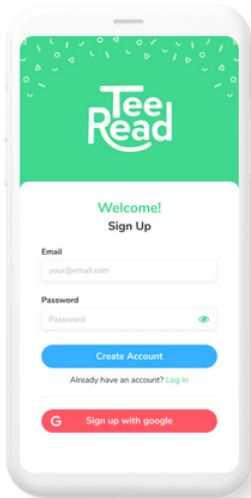

## Matches students with books at their level

Students get access to TeeRead's extensive library of leveled books that is instantly updated after a student changes his/her reading level

# Easy to implement - super easy to use

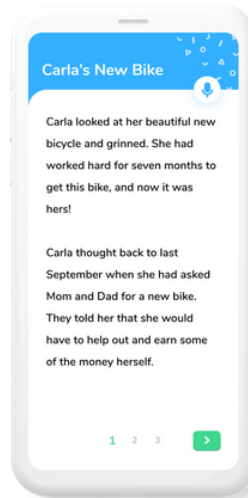

TeeRead was designed with real teachers to maximize usability in the classroom and at home

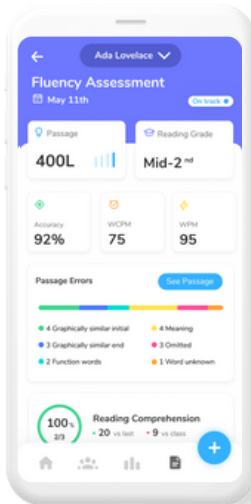

## 1 Sign up to TeeRead

- Sign up in under 30 seconds on any device
- Roster your students
- Choose your ideal assessment frequency
- Voila! Your students are ready to take an assessment

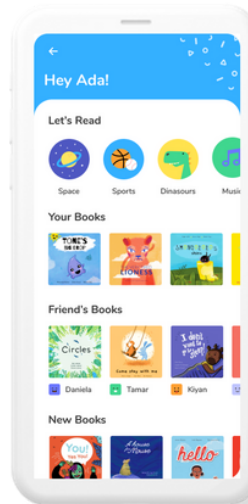

## 2 Student reads a passage out loud

- Your students will automatically be prompted to read a passage out loud
- Students can access the platform from any device in the classroom or at home
- After reading the passage, students will be asked to answer reading comprehension questions

## 3 You get an actionable report

- You will receive a simple report that shows your student's key fluency metrics and detailed miscue analysis
- You can then easily group students within the platform

## 4 Your student gets a personalized library

- As soon as each student finishes an assessment, they get access to an engaging book library leveled to their specific independent reading level
- Badges and points help kids stay engaged with reading
